January 12, 2022

Jacquie,

On behalf of the Florida Beach Patrol Chief's Association (FBPCA) we would like to thank you and the Surfing's Evolution & Preservation Foundation for the support in providing the beach safety flag grant. As you may be aware our coastal conditions can be a rather harsh environment which takes a toll on the flags and informational signs we use. These important assets provide the consistent safety information daily to the vast number of visitors that enjoy our beaches and coastal communities.

The FBPCA was founded in 1983 and consists of aquatic leaders, supervisors, and chiefs of beach patrol organizations throughout the state of Florida. A mission of the FBPCA is to identify measures, practices, and programs that will promote public safety along Florida's hundreds of miles of beaches. This mission can seem daunting; however with the hard work of the Association and establishing partnerships with foundations like yours great accomplishments in ocean rescue will be made.

Your commit to providing this grant helps us maintain a consistent level of professional with vibrant flags and signs for all to see. As we prepare for our Lifesaving awards banquet to be held in Orlando on May 13 & 14 of this year, I wanted to obtain your permission to use the license plate and your website in our awards program. Everyone should be made aware of your commitment to Florida's Professionals.

Thank you

Respectfully in lifesaving,

Joe Westerman
